

Curriculum Vitae

David Hoyt Brainard

Personal Information

David Hoyt Brainard
Department of Psychology
University of Pennsylvania
Suite 302C, 3401 Walnut Street
Philadelphia, PA 19104
(215) 573-7579 (voice)
brainard@psych.upenn.edu
<https://color.psych.upenn.edu/brainard>
Born: June 5, 1960, New Haven, CT, USA

Education

1982, Harvard University, A.B. Magna Cum Laude, Physics.
1989, Stanford University, M.S., Electrical Engineering.
1989, Stanford University, Ph.D., Psychology.

Employment

1982-83, Aox Incorporated, Hopkinton, MA, Systems Programmer.
1984, Fudan University, Physics, Visiting Scholar (Unpaid Summer Position).
1990-91, University of Rochester, Center for Visual Science, Post-Doctoral Fellow.
1991-1995, University of California at Santa Barbara, Psychology, Assistant Professor.
1995-1999, University of California at Santa Barbara, Psychology, Associate Professor.
1999-2001, University of California at Santa Barbara, Psychology, Psychology, Professor.
2001-2013, University of Pennsylvania, Psychology, Professor.
2005-2010, University of Pennsylvania, Psychology, Department Chair.
2013-present, University of Pennsylvania, RRL Professor of Psychology.
2019-2023, University of Pennsylvania, Associate Dean for the Natural Sciences, School of Arts and Sciences

Awards and Honors

1978, National Merit Scholar.
1985-88, NSF Graduate Fellowship.
1987, ARVO Travel Fellowship.
1987, Cold Spring Harbor Laboratory Short Course Fellowship.
1990-91, NIH/NEI National Research Service Award, Individual Post-Doctoral Fellowship.
1991, Best Student Paper, Society for Information Display Annual Meeting.
1993, Honorable Mention, NSF Young Investigator Award Program.
2000, Fellow, Optical Society (OSA, now Optica).
2006, Macbeth Award, Inter-Society Color Council.
2009, Fellow, Association for Psychological Science (APS).
2013, Ira H. Abrams Memorial Award for Distinguished Teaching, School of Arts and Sciences, University of Pennsylvania.
2015, Stein Innovation Award, Research to Prevent Blindness (RPB).

2016, Palmer Lecture, Colour Group of Great Britain.
2017, Silver Fellow, Association for Research in Vision and Ophthalmology (ARVO).
2017, Boynton Lecture, Optical Society (OSA, now Optica).
2018, W. S. Stiles Memorial Lecture, University College London.
2020, Russell De Valois Memorial Lecture, UC Berkeley, Berkeley, CA.
2021, Edgar D. Tillyer Award, Optica (formerly OSA).
2023, Elected member of the Society of Experimental Psychologists.
2023, Elected member of the National Academy of Sciences USA.

Extramural Support

2022-2025, AFOSR FA9550-22-1-0167, Single retinal ganglion cells and sensation (Penn sub-award PI) (Williams, University of Rochester, PI).
2020-2023, NIH/NEI EY030227, Imaging photoreceptor function, Co-I (Morgan, PI).
2020-2023, Sponsored Research Agreement, Johnson and Johnson, Spatial-spectral contrast sensitivity, PI.
2018-2023, NIH/NEI EY028601, Photoreceptor structure, function, and response to gene therapy in Choroideremia, Co-I (Morgan, PI).
2009-2022, NIH/NEI P30 EY00158, Core grant for vision research, PI.
2020-2022, NIH/NINDS K99 NS118117, Using multiple species, stimuli, and tasks to study the neural basis of visually guided behavior, Co-Mentor, (Ni, PI).
2017-2022, Research Gift, Facebook Reality Labs (formerly Oculus).
2015-2021, NIH/NEI RO1 EY024681. Melanopsin and cone signals in human visual processing, PI (MPI award, with Aguirre also PI).
2015-2020, NIH/NEI U01 EY025477, Platform technologies for microscopic retinal imaging: development and translation, Co-I (Carroll and Dubra, PIs).
1992-2019, NIH/NEI RO1 EY010016, Color constancy, PI.
2015-2018, DoD MR141251, Melanopsin specific contributions to photophobia in brain trauma, Co-PI (Aguirre, PI).
2015-2018, Research to Prevent Blindness (RBP) Stein Innovation Award, Assessment of retinal function at a cellular scale, PI.
2014-2017, Simons Foundation Global Brain Initiative, Large-scale data and computational framework for circuit investigation, PI (MPI award with Chichilnisky, Rieke, and Wandell also PIs).
2010-2016, NSF IGERT Training Grant, Complex scene perception, Co-I (Daniilidis, PI).
2014-2015, Samsung Corporation, Regional tone mapping optimization in high-dynamic range display, PI.
2010-2015, NIH, Test efficacy of retinal photoswitch molecules in a canine model, Co-I (Beltran, PI at Penn; Isacoff, PI).
2014-2015, Reading center services for assessing redness clinically and photographically. Amakem Therapeutics, Co-I (Maguire, PI).
2010-2014, PA Department of Health CURE 2010-06-01, Improving vision and preventing visual impairment in rural Amish and urban African Americans, Co-I (Stambolian, PI).
2012-2013, Sponsored Research Agreement, Amakem Therapeutics, Co-I (Maguire, PI).
2009-2011, NIH/NEI RO1 EY010016S1, Color constancy ARRA supplement, PI.
2010, Sponsored Research Agreement, Inspire Pharmaceutical, Co-I (Maguire, PI).
2005-2010, NIH/NIMH RO1 MH70850 Visual knowledge of objects, Co-I (Thompson-Schill, PI).
2000-2001, Sponsor, NIH/NEI NRSA post-doctoral fellowship awarded to Manoel Rowe.
2000-2001, Agilent Corporation, Research in digital imaging, PI.
1995-2000, Hewlett-Packard Corporation, Research in digital imaging, PI.
1996-99, Sponsor, NIH/NEI NRSA post-doctoral fellowship awarded to James Kraft.
1993-95, NSF, Instructional Laboratory Instrumentation, Laboratory in human information processing, PI.

Intramural Grant Support

1991-95, UCSB Academic Senate Travel Grants.
1991, UCSB Academic Senate Research Grant.
1992, UCSB Instructional Development Minigrant.
1993, UCSB Academic Senate Research Grant.
1994, UCSB Academic Senate Research Grant (with G. Jacobs).
1994, UCSB Instructional Development Minigrant.
2011, Penn University Research Foundation Grant.

Anant Kumar, 2018, Paid Research Assistant, Independent Study
Mia Chiquier, 2018, Independent Study
Deena Elul, 2019-21, Paid Research Assistant, Independent Study
Claire Marucci, 2021-22, Paid Research Assistant
Carlos Rodriguez, 2022-present, Post-Bac Scholar

2018-2019, Pre-major Advisor, School of Arts and Sciences.

Invited Talks

1991, UC Irvine, "Reconstruction of signals from short-wavelength cones."
1992, UC San Diego, "Reconstruction of signals from short-wavelength cones."
1993, University of Rochester, "Bayes estimator for reconstruction from samples."

1993, UCLA, "Bayes estimator for reconstruction from samples."

1993, Conference on Geometrical Representations of Mathematical Phenomena, "Reconstructing a trichromatic percept from univariate samples"

1993, UC Berkeley, "Ideal observer for reconstruction from trichromatic samples."

1993, Stanford University, "Ideal observer for reconstruction from trichromatic samples."

1993, UCSB, Department of Statistics, "Bayesian method for reconstruction from trichromatic samples: applications to human vision."

1994, Society for Illumination Engineering, Santa Barbara Chapter, "How the illumination affects color appearance."

1994, UCSB, Department of Physics, "Non-linear inverse problems: applications to color vision."

1994, UCSB, Department of Electrical and Computer Engineering, "Bayesian method for recovering surface and illuminant properties from photosensor responses."

1994, IS&T 47th Annual Meeting, "Bayesian method for reconstructing color images from trichromatic samples."

1994, Goldstar Corporation Image and Media Lab, Seoul, Korea, "Color constancy in human and machine vision."

1994, Osaka Electro-Communication University, Osaka, Japan, "Color constancy in human and machine vision."

1995, UC Irvine, Department of Cognitive Science, "Color constancy in the nearly natural image."

1995, MIT, Department of Brain and Cognitive Sciences, "Color constancy in the nearly natural image."

1995, IBM Almaden Research Center, "Color constancy: perceptual computations in humans and computers."

1995, Keynote address, "Reconstructing images from trichromatic samples: from basic research to practical applications." IS&T Color Imaging Conference, Scottsdale, AZ.

1995, Trieste Encounters in Cognitive Science, Trieste, Italy. "Color constancy in the nearly natural image."

1996, Second NECI Vision Workshop, "Color constancy in the nearly natural image."

1996, FASEB Meeting on Retinal Neurobiology and Visual Performance, "Behavioral consequences of retinal sampling: interactions between space and color."

1996, University of California Workshop on Vision Modeling, "Bayesian modeling of human performance."

1996, UCLA, Department of Psychology, "Color constancy in the nearly natural image."

1997, Second Annual Hewlett-Packard Session on University Research in Imaging, "Hyperspectral color imaging."

1997, Optical Society of America Annual Meeting, Workshop on Visual Modeling Environments.

1997, Workshop on Natural Scene Statistics, Jimminy Peak, MA. "Chromatic structure in natural images."

1997, California Institute of Technology, CNS, "Color constancy in the nearly natural image."

1998, UC Berkeley, "Color constancy in the nearly natural image."

1998, Smith-Kettlewell Eye Research Institute, "Color constancy in the nearly natural image."

1998, University of Chicago, "Color constancy in the nearly natural image."

1998, University of Rochester, Center for Visual Science Symposium: Environmental Structure, Statistical Learning, and Visual Perception, "Color constancy in the nearly natural image."

1998, University of Oregon, "Color constancy in the nearly natural image."

1999, University of Washington, "Color constancy in the nearly natural image."

1999, SIGGRAPH, Panel Presentation, "How realistic are monitor images?"

2000, University of Pennsylvania, "Color constancy in the nearly natural image."

2000, Keynote address: ISSC Panchromatic 2000 Conference, "Color constancy and color context effects."

2001, Smith-Kettlewell Eye Research Institute, Workshop, Bayes 2001, "Bayesian modeling of human

- color constancy.”
- 2001, NYU, “Computational mechanisms of color constancy.”
- 2002, Rutgers (New Brunswick), “Computational mechanisms of color constancy.”
- 2003, Brown University, “Computational mechanisms of color constancy.”
- 2003, Schepens Eye Research Institute, Broadhurst Distinguished Lecture Series, “Computational mechanisms of color constancy.”
- 2003, Penn Institute of Neural Science Retreat, “Mechanisms of color constancy.”
- 2003, University of Rochester, “That was then, this is now: 40 years of color vision.”
- 2003, NYU, Workshop on Perception of Color and Material Properties in Three-Dimensional Scenes, “Lightness constancy: the effect of surface slant.”
- 2003, Keynote address, IS&T Color Imaging Conference, Scottsdale, AZ, “Computational mechanisms of human color constancy”
- 2004, Rutgers (Newark), “Lightness constancy: the effect of surface slant.”
- 2004, UT Austin, “Computational mechanisms of color constancy.”
- 2005, Keynote address, 10th Congress of the International Colour Association, “Computational mechanisms of color constancy”, May 8-13, Granada, Spain.
- 2006, Cambridge Research Systems Invited Lecture, Vision Meeting of the Colour Group of Great Britain, “Bayesian models of color appearance: understanding the appearance of small spot colors”, January 12, London, England.
- 2006, Macbeth Award Invited Lecture, “Bayesian models of color appearance”, Annual Meeting of the ISCC, May 14-15, 2006, Ottawa, Canada.
- 2006, Columbia University, “Color from a single cone? Understanding the appearance of small spot colors.”
- 2007, Invited Lecture, “Gloss, color, and 3D objects”, 19th Symposium of the International Colour Vision Society, July 27-31, 2007, Belem, Brazil.
- 2007, New York University, “Color, Bayes, and the trichromatic mosaic: understanding the appearance of small spot colors.”
- 2007, IMBS Conference on Mathematics and Vision, “Color, cones, and Bayesian modeling: understanding the appearance of small spot colors,” UC Irvine, November 9-11, 2007, Irvine, CA.
- 2008, Workshop on Natural Environments, Tasks, and Intelligence, “Bayes and the trichromatic cone mosaic,” UT Austin, March 28-30, 2008, Austin, TX.
- 2008, Workshop on Perception of Material Properties in 3D Scenes, “Material, color, and complex scenes,” University of Pennsylvania, October 17-19, 2008, Philadelphia, PA.
- 2009, Workshop on Cognitive and Developmental Factors in Perceptual Constancy, Discussant, University of Pennsylvania, February 20-22, 2009, Philadelphia, PA.
- 2009, Visual Processing in Insects II, “Bayes, color, and the trichromatic cone mosaic,” Janelia Farm, May 17-20, 2009, Ashburn, VA.
- 2009, OSA Fall Vision Meeting, “Bayesian Models of Object Color Perception,” September 24-27, 2009, Seattle, WA.
- 2009, Rutgers University, “Color, cones, and Bayesian modeling: understanding the appearance of small spot colors,” October 12, 2009, New Brunswick, NJ.
- 2010, SUNY College of Optometry, “Color, cones, and Bayesian modeling: understanding the appearance of small spot colors,” February 5, 2010, New York, NY.
- 2010, University of Pennsylvania, “Color, cones, and Bayesian modeling: understanding the appearance of small spot colors,” April 5, 2010, Philadelphia, PA.
- 2010, ARVO Annual Meeting, VSS Symposium on Understanding the Function Mechanisms of Visual Performance, “Bayes and the cone mosaic: understanding the color appearance of very small spots”, May 5, 2010, Ft. Lauderdale, FL.
- 2010, Stanford University, “Bayes, color, and visual perception,” June 2, 2010, Palo Alto, CA.
- 2010, FASEB Meeting on Retinal Neurobiology and Visual Processing, “Bayes and the cone mosaic,” July 11-16, Saxtons River, VT.
- 2011, Department of Ophthalmology, Harvard University, “Color perception in complex scenes,” January 20, 2011, Boston, MA.

- 2011, Department of Psychology, Northeastern University, "Bayes and color vision," March 31, 2011, Boston, MA.
- 2011, Workshop on Perception of Material Properties, "Space and spectrum: color constancy in the third dimension," June 1-5, Schloss Rauischholzhausen, Germany.
- 2011, OSA Imaging Systems Applications Topical Meeting . "Learning the mosaic: unsupervised identification of sensor spectral types," July 10-14, Toronto, Canada.
- 2011, GRASP Lab, University of Pennsylvania . "The human demosaicing algorithm," September 8, 2011, Philadelphia, PA.
- 2011, Keynote Address, IS&T Color Imaging Conference, San Jose, CA. "The human demosaicing algorithm"
- 2011, Center for Image Systems Engineering, Stanford University, "The human demosaicing algorithm," November 11, 2011, Stanford, CA.
- 2012, Center for Visual Science, University of Rochester, "Decoding the cone mosaic," June 11, 2012, Rochester, NY.
- 2012, Sensory Coding and the Natural Environment 2012, "Decoding the cone mosaic," September 9-12, 2012, IST, Klosterneuburg, Austria.
- 2013, College of Optometry, University of Houston, "Temporal properties of cone and ipRGC contributions to the pupillary light reflex," October 7, 2013, Houston, TX.
- 2013, CVS 50th Anniversary Symposium, Center for Visual Science, University of Rochester, "Color vision and the natural image," October 19, 2013, Rochester, NY.
- 2014, NETI Workshop, University of Texas at Austin, "Color constancy in natural tasks," April 11-13, 2014, Austin, TX.
- 2014, Janelia Conference on Signal Transforms in the Early Visual System, "Population coding of lightness in early visual cortex", September 14-17, 2014.
- 2014, 3M Corporation, "Color in Natural Tasks", October 27, 2014, St. Paul, Minnesota.
- 2015, University of Giessen, "Population coding of lightness in primate visual cortex", January 21, 2015, Giessen, Germany.
- 2015, University of Washington, "Population coding of lightness in primate visual cortex", February 2, 2015, Seattle, WA.
- 2015, ARVO Annual Meeting Minisymposium on Exploring the Distribution and Expression of L-, M- and S-cone Photoreceptors, "Learning the mosaic: Unsupervised typing of L and M cones from natural image input", May 5, 2015, Denver, CO.
- 2015, OSA Imaging and Applied Optics Congress, "ISETBIO: Computational tools for modeling early human vision", June 9, 2015, Arlington, VA.
- 2015, Computational Eye and Brain Workshop, "Modeling in ISETBIO: Unsupervised typing of L and M cones from natural image input", August 20, 2015, Stanford, CA.
- 2015, European Conference on Visual Perception, Symposium on Color Constancy, "Confessions of a constancy index junkie", August 23-27, 2015, Liverpool, UK.
- 2015, Fifth PRISM Network Workshop, "The use of color and material perception to accomplish naturalistic tasks", October 6-9, 2015, Leuven, Belgium.
- 2016, Meeting of the Colour Group of Great Britain, Palmer Lecture, "Psychophysics in the distal stimulus: color and material perception in the service of natural tasks", January 13, 2016, London.
- 2016, Vanderbilt University, Vision Science Talk Series, "Color and material perception in the service of natural tasks", March 3, 2016, Nashville, TN.
- 2016, Vision Sciences Society Annual Meeting, Symposium on Artifice versus realism as an experimental methodology, "The use of graphics simulations in the study of object color appearance", May 13, 2016, St. Petes Beach, FL.
- 2016, European Conference on Visual Perception, Symposium on Color: Cone Opponency and Beyond, "Color psychophysics in the distal stimulus", August 28-September 1, Barcelona, Spain.
- 2016, OSA Fall Vision Meeting, "100 years of vision and color in OSA", October 21-23, Rochester, NY.
- 2017, University of Maryland, "Color and material perception in the service of naturalistic tasks", April 14, 2017, College Park, MD.

- 2017, AI-apalooza, "Learning Cone Types: An Ahumada Inspired Adventure in the Fundamentals of Color Vision", May 24, 2017, St. Pete Beach, FL.
- 2017, University of Nevada, Reno, "Spatial vision at the scale of the cone photoreceptor mosaic," November 17, 2017, Reno, NV.
- 2017, OSA Fall Vision Meeting, Boynton Lecture, "Perceptual and neural untangling of surface-illuminant ambiguity," October 13, 2017, Washington, D.C.
- 2018, Royal Society London, Discussion meeting: Understanding images in biological and computer vision, "Resolution of visual ambiguity: interactions in the perception of colour, material and illumination," February 19, 2018, London.
- 2018, University College London, W. S. Stiles Memorial Lecture, "Adaptive optics based assessment of visual function at the scale of individual cones," February 22, 2018, London.
- 2018, Google Research, "Spatial vision at the scale of the cone photoreceptor mosaic," July 18, 2018, Cambridge, MA.
- 2019, UT Austin, "Spatial vision at the scale of the cone photoreceptor mosaic," March 11, 2019, Austin, TX.
- 2019, DyViTo Workshop, "Vision at the resolution limit of the cone mosaic," November 5-8, 2019, Cappadocia, Turkey.
- 2019, International Shitsukan Symposium, "Measurement and modeling of the use of color and material in naturalistic tasks," December 5-6, 2019, Kyoto Japan.
- 2020, Stanford University, "Vision at the scale of the human foveal cone mosaic," April 3, 2020, Stanford, CA. [Presented virtually because of Covid-19.]
- 2020, Adaptive Optics Psychophysics Workshop, "ISETBio: An image computable model of the early stages of human vision," June 8-9, 2020, Berkeley, CA [Held virtually because of Covid-19].
- 2020, OSA Technical Group Webinar, "ISETBio: Modeling the initial steps of human vision," July 21, 2020.
- 2020, Keynote Address, OSA Incubator on Visual Perception in AR/VR, "Incorporating visual system modeling into display technology," September 22-25, 2020. [Held virtually because of Covid-19].
- 2020, UC Berkeley, Russell De Valois Memorial Lecture, "Reconstructing Color Images from the Sensory Representations of Human Vision," November 9, 2020, Berkeley, CA. [Presented virtually because of Covid-19.]
- 2021, NYU, "Spatial summation at the resolution limit of the cone mosaic," March 25, 2021, New York, NY. [Presented virtually because of Covid-19.]
- 2022, Optical Fall Vision Meeting, "The early visual encoding: computations and consequences", Tillyer Award Keynote Lecture, October 27-30, 2022, Rochester, New York.
- 2023, National Eye Institute, "The initial visual encoding: computations and consequences", Bethesda, MD, February 23, 2023.
- 2023, Society of Experimental Psychologists Annual Meeting, "Single cone optoretinography", Philadelphia, PA, May 7-8, 2023.
- 2023, Scheie Eye Anniversary Meeting, "Insights from computational modeling of the initial visual encoding", Philadelphia, PA, May 5, 2023.
- 2023, Color Vision Workshop, "The initial visual encoding and consequences for color vision", University of Giessen, Giessen, Germany, July 15-19, 2023.
- 2023, Rank Prize Meeting, "The initial visual encoding by the cones and connections to the study of ipRGCs", Grasmere, UK, September 14-17, 2023.
- 2023, Flatiron Center for Computational Neuroscience, "Computational modeling of the initial visual encoding and consequences for perception", New York, NY, November 3, 2023.
- 2023, Monell Osmoauts Group, Virtual Presentation, November 1, 2023.

Reviewing

Applied Optics; Brain; Cognition; Color Research and Application; Current Biology; Current Opinion in Behavioral Science; eLife; Graphics Interface '94 Conference; IEEE Transactions on Image

Processing; Investigative Ophthalmology and Visual Science; Journal of Comparative Neurology; Journal of Computational Neuroscience; Journal of the Optical Society; Journal of Mathematical Psychology; Journal of Neuroscience; Journal of Vision; Nature; Nature Neuroscience; Neuron; NIPS; NSF; Optical Engineering; Perception; Perception and Psychophysics; Proceedings of the National Academy of Sciences USA; PLoS Biology; PLoS Computational Biology; PLOS One; Psychological Science; Royal Society Interface Focus; Siggraph; Spatial Vision; Vision Research; Wellcome Trust.

Teaching

Courses taught:

- Introduction to Cognitive Science (undergraduate)
- Perception: Vision (undergraduate)
- Laboratory in Perception (undergraduate)
- Visual Neuroscience (undergraduate)
- Eye, Mind, and Image (undergraduate)
- Visual Systems Analysis (undergraduate/graduate)
- Mathematical Psychology (graduate)
- Perception (graduate)
- Advanced Visual Neuroscience (graduate)
- Experimental Methods in Perception (graduate)
- Assorted Graduate Seminars

1995, Invited Faculty, McDonnell Foundation Summer Institute in Cognitive Neuroscience.
1996, 1998, 2000, 2002, 2004, 2006, 2008, 2010, 2012, 2014, 2016, Invited Faculty, Cold Spring Harbor Lab, Short Course in Computational Neurobiology: Vision.
1998, Society for Information Display Short Course in Color Science.
1998, Outside Member, Dissertation Committee of Elaine Jin, University of Chicago.
1998, Reader for Habilitation of Heinz Bauml, University of Regensburg.
1998, Optical Society of America Annual Meeting, Short Course in Color Spaces.
1999, Outside Member, Dissertation Committee of Barnard Kobus, Simon Fraser University.
2001-2003, 2005, Lecturer, IRCS Summer Undergraduate Workshop in Cognitive Science.
2002, Outside Member, Dissertation Committee of Elizabeth Johnson, New York University.
2005, Outside Member, Dissertation Committee of Katja Doerschner, New York University.
2008-2012, Co-organizer, IRCS Summer Undergraduate Workshop in Cognitive Science.
2008, Invited Faculty, Sage Center Summer Institute in Cognitive Neuroscience.
2007-2010, Lecturer, Penn Summer Undergraduate Program in Computational Neuroscience.
2008, Outside Member, Dissertation Committee of Ana Radonjić, Rutgers University.
2009, Lecturer, Penn Biomedical Graduate Studies Summer Undergraduate Internship Program.
2010, Outside Member, Dissertation Committee of Holly Gerhard, New York University.
2011, 2013, 2016, 2018, Facilitator, Penn Biomedical Graduate Studies Workshop on Responsible Conduct of Research.
2011, Judge, NSF IGERT Poster Competition.
2012-2016, Co-Organizer, Complex Scene Perception Journal Club.
2016, Outside Reader, PhD Thesis of Alexandra Schmidt, University of Sydney.
2018, Invited Faculty, ICVS Summer School, Oxford University.
2019, 2023, Invited Faculty, Cold Spring Harbor Lab, Short Course in Vision: A Platform for Linking Circuits, Behavior & Perception.
2020, Co-Organizer (with Smithson, Parry, Spitschan), ICVS Summer School (held virtually because of Covid-19).
2023, Co-Organizer (with Smithson, Parry, Hexley), ICVS Summer School, Oxford University, July 30 – August 4, 2023.

Professional Service

1991, Technical Committee, OSA Annual Meeting.
1995, Technical Committee, OSA Annual Meeting.
1996, Temporary Member, NIH Vision Sciences B Study Section (twice)
1997-2003, Topical Editor for Color, Journal of the Optical Society A.
2000-2002, NIH Visual Sciences B Study Section.
2001-2003, OSA Tillyer Award Committee.
2001-2007, Vision Sciences Society Abstract Review Board
2003, Chair, NIH Special Emphasis Study Section (July)
2003-2017, Board of Editors, Journal of Vision.
2003, Organizer (with L. T. Maloney), Workshop on Perception of Color and Material Properties in Complex Scenes, New York University, October 2003.
2004, NIH Special Emphasis Study Section (March)
2004, Chair, NIH Special Emphasis Study Section (July)
2005, Chair, NIH Special Emphasis Study Section (March)
2006, NIH Special Emphasis Study Section (June)
2006, NIH Special Emphasis Study Section (November)
2007, Program Committee, SIGGRAPH Meeting on Applied Perception and Computer Graphics
2008, Session Chair and Discussant, Gordon Research Conference on Sensory Coding and the Natural Environment, Lucca, Italy.
2008, Organizer (with L. T. Maloney, A. Hurlbert), Workshop on Perception of Material Properties in 3D Scenes, University of Pennsylvania, October 2008.
2008, Chair, NIH Special Emphasis Study Section (December)
2009-12, Vice-Chair, Color Technical Group, OSA Vision and Color Division.
2013-2015, Chair, Color Technical Group, OSA Vision and Color Division.
2010, NIH Special Emphasis Study Section (January).
2011, NIH Special Emphasis Study Section (February).
2012, NIH Special Emphasis Study Section (May).
2013-14, Vision Sciences Society Young Investigator Award Selection Committee.
2014, Chair, Local Organizing Committee, OSA Fall Vision Meeting.
2015, Temporary Member, NIH SPC Study Section (September).
2016-2021, Board of Directors, Vision Sciences Society.
2017, NIH Special Emphasis Study Section (March).
2017-2019, OSA Tillyer Award Committee (Chair, 2018, Past-Chair, 2019).
2017-2018, Guest Editor, Annual Review of Vision Science.
2018-2022, Associate Editor, Journal of Vision.
2018, Editorial Board, Neurons, Behavior, Data Analysis and Theory.
2018-2019, Editorial Committee, Annual Review of Vision Science.
2019-2020, President, Vision Sciences Society (President-Elect, 2018-2019, Past-President 2020-2021).
2019-present, Co-Editor, Annual Review of Vision Science.
2020, Member, Ad Hoc Review Committee, Research to Prevent Blindness.
2020, 2023, Co-Editor, Feature Issue on Color Vision, Journal of the Optical Society A.
2021, NIH Special Emphasis Study Sections (March, August).
2023-present, Board of Editors, Journal of Vision.

Departmental and University Service (UCSB)

1991-97, Life Sciences Computing Facility Steering Committee.
1991-92, Department Computer Committee.
1992-93, Department Graduate Admissions Committee.
1992-93, Department Mathematics/Statistics Curriculum Committee.

1992-94, College Computing Task Force.
 1992-97, Organizer of Vision Science Seminar Series.
 1993, 1996, 1997, Faculty Participant, Freshman Orientation Program.
 1993, Ad-hoc group to meet with UC Provost Walter Massey.
 1993-94, Department Executive Committee.
 1993-94, Department Mathematics/Statistics Curriculum Committee (Chair).
 1994-98, Department Technical Policy Committee (Chair, 95-98).
 1995, University Small Department Graduate Fellowship Committee.
 1996-97, College Computer Coordinator Search Committee.
 1996-98, University Faculty Welfare Committee.
 1996-98, University Child Care Advisory Committee (Co-Chair, 1997-98).
 1997-98, Vision Science Search Committee (Chair).
 1998-99, On sabbatical leave.
 1999-00, Vision Science Search Committee (Chair).
 1999-00, Life Sciences Computing Facility Steering Committee.
 1999-01, Department Technical Policy Committee (Chair, 2000-01).
 2000-01, University Committee on Capital Projects.
 2000-01, Neuroscience Research Institute Advisory Board
 2000-01, Psychology Department Executive Committee.

Department and University Service (Penn)

2001-03, Chair's Advisory Group, Department of Psychology.
 2002-04, Psychology Department Space Committee
 2001-05, Committee on Visual Studies Major.
 2002-05, Executive Committee, Penn's NIH Vision Training Grant.
 2002-03, Chair, Faculty Search Committee.
 2002-03, Chair, Departmental Ad-Hoc Faculty Reappointment Committee.
 2002-03, Departmental Ad-Hoc Tenure Review Committee.
 2002-05, Neuroscience Graduate Admissions Committee.
 2003-04, Departmental Ad-Hoc Target of Opportunity Hiring Committee.
 2003-05, Chair, Departmental Web Site Committee
 2003-04, SAS Personnel Committee.
 2004-05, Chair, SAS Personnel Committee (aka Tenure and Promotions Committee).
 2004-05, Chair, Departmental Ad-Hoc Faculty Reappointment Committee.
 2005-06, Center for Cognitive Neuroscience Steering Committee.
 2005-10, Chair, Department of Psychology
 2006, SAS Task Force on Structure of Personnel Committee.
 2006-2007, Provost's Neuroscience Cluster Working Group.
 2006-2011, Institute for Research in Cognitive Science Executive Committee.
 2007, SAS Committee on Metrics.
 2009-2022, Director, Penn Vision Research Center (Co-Director, 2005-2008).
 2010-11, Department Ad-Hoc Tenure Review Committee.
 2011-12, Chair, Department Ad-Hoc Faculty Reappointment Committee.
 2011-12, Chair, Faculty Search Committee.
 2011-12, Provost's Committee on Sabbaticals.
 2011-12, Chair, SAS Chair Committee.
 2011-16, Director, Institute for Research in Cognitive Science.
 2012-16, Co-Director, Penn's NSF IGERT Program in Complex Scene Perception.
 2013-14, Departmental Ad-hoc Faculty Promotion Committee.
 2013-14, Chair, SAS Strategic Planning Working Group on Mapping the Mind.
 2014-15, Chair, Departmental Ad-hoc Faculty Promotion Committee.
 2014-15, Center for Cognitive Neuroscience Review Committee.

2014-18, Co-Director, Penn Computational Neuroscience Initiative.
2015-16, SAS Task Force on Tenure and Promotion Procedures.
2015-17, SAS Working Group on Strategic Plan Implementation, Mapping the Mind.
2016-17, Chair, Department Ad-Hoc Tenure Review Committee.
2017-18, MINS Neuroscience Advisory Group.
2017-18, Executive Committee, MindCORE.
2017-18, Psychology Department Chair's Advisory Group.
2018, Department Ad-Hoc Search Committee.
2019-2023, Associate Dean for the Natural Sciences, Many Committees Ex-Officio.

Consulting

1994-1997, Hewlett-Packard Laboratories.
1998-99, Enroute, Inc.

Film Appearances

Played part of Samuel Allison. *Fat Man and Little Boy* (1989. Paramount Pictures. Directed by R. Joffe. Starring P. Newman, J. Cusak).

Numbers

ErDOS: 4
Bacon: 2
ErDOS-Bacon: 6
